The Obstetrics and Gynecology Residency Program at HCA Medical City Arlington is a community-based program designed to provide a patient-centric and evidence-based comprehensive training experience that prepares resident physicians to enter practice with skill and confidence. Our faculty are dedicated to combining the academic foundations of residency training with the “real world” experience of private practice to ensure every graduate is set up for career success.

Whether you want to pursue private practice, academic medicine, or fellowship training, our residency program is here to guide you on that journey.

Our four-year program is under the HCA Medical City Healthcare UNT-TCU Graduate Medical Education Consortium which is affiliated with the University of North Texas Health Science Center Texas College of Osteopathic Medicine and UNTHSC-TCU School of Medicine.

Over the course of your training, you will be exposed to all aspects of obstetrics and gynecology, as well as other skills necessary to succeed in the ever-changing world of healthcare. We offer active mentorship and guidance that will carry through all aspects of your training, supporting your development as a physician and as a person. We expect our graduates to be highly skilled, confident physicians that will serve as tomorrow’s leaders in women’s healthcare.

We have a very close relationship with our other GME programs, and our experienced faculty model the highest standards of patient care and provide hands-on instruction and clinical experiences in all areas of women’s health. They are eager to share their knowledge and experience with you.

Timothy Kremer, MD FACOG
Program Director
Our Faculty

Timothy Kremer MD, FACOG
- Program Director
- Dr. Kremer is a graduate of the University of Cincinnati and completed his residency training at John Peter Smith Hospital in Fort Worth, Texas. He has been involved in all aspects of medical education for the last 13 years, working with residents and medical students in the classroom and clinical settings. Dr. Kremer’s favorite part of residency education is working with residents in the operating room.

Michael Chmielewski MD, FACOG
- Associate Program Director
- Dr. Chmielewski completed his residency training at Thomas Jefferson University. He has previously worked in private practice in Pennsylvania. Dr. Chmielewski’s interests and expertise includes performance improvement, patient safety, and emergency & disaster management.

Steven Seligman MD, FACOG
- Gynecologist and Director of Gynecologic Surgery Education
- Dr. Seligman completed his residency training at University of Texas Medical Branch at Galveston School of Medicine. He has practiced full-spectrum obstetrics and gynecology in Arlington for 37 years. He is skilled in advanced gynecologic procedures, including robotic surgery, and serves as a national proctor for Surgical Intuitive.
Stephanie Taylor MD, FACOG

- OB Hospitalist
- Dr. Taylor completed her residency training at Louisiana State Health Science Center. She is the medical director for the OB Hospitalists at Medical City Arlington.

Abel Morón MD, FACOG

- Gyn-Oncology Subspecialist
- Dr. Morón completed his residency training at the University of Texas Southwestern Medical Center and fellowship training at New York Downstate Medical Center. Dr. Moron is our site director for Medical City Dallas.

Kevin Magee MD, FACOG

- Maternal-Fetal Medicine Subspecialist
- Dr. Magee completed his residency training at the University of Texas Health Sciences Center in Houston and fellowship training at the University of Texas Southwestern Medical Center.

Nicole Yost MD, FACOG

- Maternal-Fetal Medicine Subspecialist
- Dr. Yost completed her residency and fellowship training at the University of Texas Southwestern Medical Center.
Renju Raj MD, FACOG

- Reproductive Endocrinology Subspecialist
- Dr. Raj completed his residency training at the Phoenix Integrated Residency Program and fellowship training at the University of Vermont. He has also been an NIH Women’s Reproductive Health Research Scholar. Dr. Raj is a practice partner at IVFMD in Arlington.

Paul Slocum MD, FACOG

- Urogynecology Subspecialist
- Dr. Slocum completed residency training in Obstetrics and Gynecology at Parkland Hospital / UT Southwestern and fellowship training in Female Pelvic Medicine and Reconstructive Surgery at Vanderbilt University Medical Center.

Benjamin Smith MD

- Urogynecology Subspecialist
- Dr. Smith, MD completed residency training at Parkland Hospital / UT Southwestern Medical Center and fellowship training in Female Pelvic Medicine and Reconstructive Surgery at TriHealth Good Samaritan Hospital.

John Washington IV MBA

- Research & Scholarship
- Mr. Washington is Division Director of Research and Administration at Medical City Healthcare. He received his MBA at Texas A&M University-Corpus Christi, where he is currently a Doctor of Education candidate.

Rotation Schedule:

PGY1:
- Labor & Delivery (days): 3 mo.
- Labor & Delivery (nights): 2 mo.
- Gynecology: 2 mo.
- Gynecology clinic: 1 mo.
- Medical ICU: 1 mo.
- Internal Medicine (inpatient): 1 mo.
- Emergency Medicine: 1 mo.

PGY2:
- Labor & Delivery (days): 4 mo.
- Labor & Delivery (nights): 2 mo.
- Gyn Oncology: 3 mo.
- Gynecology: 2 mo.
- Gyn clinic: 1 mo.

PGY3:
- Labor & Delivery (days): 3 mo.
- Labor & Delivery (nights): 1 mo.
- Urogynecology: 1 mo.
- Maternal-Fetal Medicine: 1 mo.
- Family Planning: 1 mo.
- Gynecology: 1 mo.
- REI: 2 mo.
- MIS: 1 mo.
- Gyn clinic: 1 mo.

PGY4:
- Labor & Delivery (days): 3 mo.
- Labor & Delivery (nights): 1 mo.
- Urogynecology: 1 mo.
- Maternal-Fetal Medicine: 1 mo.
- Gyn Oncology: 3 mo.
- Gynecology: 2 mo.
- MIS: 1 mo.
**Benefits:**
Residents in ACGME accredited programs have many of the same benefits as regular HCA employees. However, there are differences in the retirement plans and the leave policy for residents. Medical City Arlington provides a comprehensive list of personal benefits including but not limited to:

- 401k plan
- Basic health insurance
- Professional liability insurance
- Options for dependent health, dental and life insurance
- (2) personalized lab coats are provided at the beginning of each contract year
- Annual meal stipend
- Work phone and laptop at the beginning of your training
- UWorld Step 3 provided to all PGY1
- Up to 20 business days (Monday-Friday) of holiday, vacation, professional, sick, or other leave is provided as paid time off
- Dedicated education and research center
- 8,500 square feet includes computer lab, house staff library, and stocked dining area
- On-site call room with stocked kitchen, separate male and female sleep rooms by program, private individual showers, 2 computer stations
- Day care and flexible spending account
- Complimentary parking
- ACLS, BLS and PALS renewal

**Organizational Memberships:**

- Texas Medical Association
- American College of Physicians
- American Osteopathic Association
- Texas Osteopathic Medical Association
- Associated specialty colleges pursuant to individual training programs
About the Program

Reasons to Consider Our Program:

• Organizational leadership that is committed to graduate medical education.
• Experienced and dedicated faculty eager to provide a first class residency education.
• Full-spectrum gynecologic surgical training, including robotics.
• Patient volume and diversity of pathology provides unmatched opportunity for experience.
• 1:1 relationship with faculty physicians, including subspecialists; no fellowship programs.
Committed to the care and improvement of human life, **Medical City Healthcare** strives to deliver excellence always — providing the highest quality, cost-effective healthcare in the communities it serves. With the resources and strength of **HCA Healthcare**, including 185 hospitals in the United States and England, **Medical City Healthcare** is one of the North Texas region's largest and most comprehensive healthcare providers and includes 16 hospitals, more than 5,000 active physicians and 14,500 employees in Dallas-Fort Worth.

**ECONOMIC IMPACT**

- $279 MILLION in Charity and Unreimbursed Care
- $73 MILLION in Local Property and Sales Taxes
- $4.3 BILLION in Total Economic Impact

HCA Healthcare is a comprehensive healthcare network with over 275,000 colleagues across more than 2,000 care facilities all committed to creating a positive impact every day. We continually invest in our colleagues and facilities to better serve our patients and local communities. The Graduate Medical Education (GME) programs seek to inspire tomorrow’s physicians to care for and improve human life by focusing on patient-centered approaches to practicing the latest evidence-based medicine.

To learn more about the benefits and expectations of training with an HCA Healthcare program, view our Resident and Fellow Manual.
Our residency and fellowship programs are in 59 hospitals located in 16 states

- Residency or Fellowship Program
- HCA Healthcare Hospital
Clinical Training

Each year approximately five percent of all U.S. hospital services happen at an HCA Healthcare facility, including:

- **32+ million** patient encounters
- **7.4 million** emergency room visits
- **215,000+** babies delivered

HCA Healthcare Graduate Medical Education is a leader in clinical experience.

- Nationally known physician expertise across the country
- Investments in facilities allowing the advancement of patient care
- High emphasis on simulation results and low patient incidents
- Higher patient touch than academic facilities
- Annual collaborative mass casualty event team training

---

Size

HCA Healthcare Graduate Medical Education is the largest sponsor of residency and fellowship programs across the nation.

- **4,637** residents
- **289** fellows
- **218** specialty programs (residencies)
- **79** sub-specialty programs (fellowships)

---

Scholarly Activity

HCA Healthcare Graduate Medical Education provides a critical link between vigorous scholarly activity and real-world patient care from a sophisticated data repository of more than 32 million patient encounters each year.

- **2,500+** HCA Healthcare GME scholarly activities in 2020-21.
A commitment to scholarly activity

Based on more than 32 million patient encounters each year, our scholarly activity bridges the gap between compelling evidence and exceptional patient care.

2,500+ scholarly activities in 2020-2021
Our experiential learning is rooted in evidence-based medicine that leads to innovative, real-world patient health solutions.

Merging the rigor of ACGME accreditation with high patient touch, our residents and fellows deliver evidence-based care that demonstrates our mission to care for and improve human life.

We offer National Grand Rounds that leverage accomplished clinical expertise from across HCA Healthcare, bringing the nation’s leading medical experts to our residency and fellowship programs.

Influential Collaboration
HCA Healthcare residents and fellows have access to talented, highly skilled teams of faculty, industry experts and dedicated researchers to guide them through their journey. Residents and fellows produce evidence that drives future practice by leveraging HCA Healthcare’s national clinical data warehouse – the heart of our data ecosystem.

HCA Healthcare Scholarly Commons is a platform to collect, share and publish the variety of academic work created by the Graduate Medical Education community. During 2020, readership of those works eclipsed the 25,000 mark. Included on this platform is the HCA Healthcare Journal of Medicine, a peer reviewed scientific periodical focused on innovation, enhanced quality and developing new knowledge in clinical care and medical education for the benefit of all patients. In its first year of publication, the journal disseminated 86 articles in six issues as well as a seventh special issue on the COVID-19 pandemic.
About HCA Healthcare

HCA Healthcare is one of the nation’s leading providers of healthcare services and is comprised of 186 hospitals and more than 2,000 sites of care including surgery centers, freestanding ERs, urgent care centers, diagnostic and imaging centers, walk-in clinics and physician clinics in 20 states and the United Kingdom. With its founding in 1968, Nashville-based HCA Healthcare created a new model for hospital care in the United States.
